

# Green Department Certification Profiles

**Number of Departments:** 23

**Total Employees:** approx. 3,050 (or 20% of total workforce)

**Last Updated:** May 2016

**Department:** Architects & Engineers (A&E)

**Number of Staff:** 20

**Points:** 27

**Date of Certification:** May 2016 (also February 2012 and February 2010)

**Summary:** A&E certified with initiatives that include converting to sustainable office and cleaning supplies, promoting energy efficiency via lights and office electronics, being a campus leader in environmental awareness and outreach, and coordinating many green events, such as a floor cleanout.

**Department:** California Hall

**Number of Staff:** 110

**Points:** 26

**Date of Certification:** May 2016 (also June 2011 and July 2009)

**Summary:** California Hall certified with initiatives that minimize energy use from lighting through replacing incandescent lamps with LEDs, offering extensive composting, having a furniture and office supply ReUSE center, hosting a sustainability-themed department social, creating a bike parking space to encourage green commuting, and reducing paper use by making post doctoral fellowship applications digital.

**Department:** [Center for Middle Eastern Studies](#)

**Number of Staff:** 8

**Points:** 25

**Date of Certification:** May 2016

**Summary:** The Center for Middle Eastern Studies certified with initiatives that include reducing the energy use of computers and lighting with low energy settings and automatic shutoff, converting to digital newsletters, using soy and low energy printing, offering reusable dishes and utensils, creating an program to reduce events through virtual streaming, hosting sustainability themed events, reducing staff commute, and hosting Zero Waste Events.

**Department:** [Construction and Design](#)

**Number of Staff:** 48

**Points:** 26

**Date of Certification:** May 2016 (also February 2014 and January 2012)

**Summary:** Construction and Design re-certified with initiatives such as the purchase of a new, electric department vehicle replacing the old energy inefficient model, the use of mobile technology for project managers to significantly reduce the usage of paper and transportation on job sites, and the expansion of their composting program.

**Department:** [Facilities Services](#)

**Number of Staff:** approx. 450

**Points:** 28

**Date of Certification:** May 2016 (also March 2010)

**Summary:** Facilities Services certified with initiatives that include fostering a campus wide awareness of water and energy efficiency, being a leader in recycling and composting, dramatically reducing the number of fleet vehicles, and hosting numerous sustainable events, including a facility-wide clean out.

**Department:** [Graduate Division](#)

**Number of Staff:** 62

**Points:** 17

**Date of Certification:** May 2016 (also April 2012)

**Summary:** The Graduate Division certified with initiatives such as the implementation of electronic dissertation filing that reduces the amount of paper used per year by thousands of sheets, the implementation of a rechargeable battery program which reduces electronic waste greatly, and portable webcasting hardware, which reduces travel to graduate advisor sessions.

**Department:** [LEAD Center](#)

**Number of Staff:** 36

**Points:** 22

**Date of Certification:** May 2016

**Summary:** The LEAD Center was certified for establishing a culture of sustainability such as the implementation of a bring your own mug campaign, educated their staff on sustainability efforts, composting and recycling, and strong participation in the 2015 Cool Campus Challenge where nearly 25% of the department made an effort to reduce carbon emissions on campus.

**Department:** Operational Excellence

**Number of Staff:** 10

**Points:** 21

**Date of Certification:** May 2016

**Summary:** Operational Excellence certified with initiatives that include reducing the energy use of computers, lights, and printers, organizing a building wide clean up and repurposing initiative for furniture and office supplies, offering battery recycling, auditing and updating appliances, and offering low carbon emission transportation options and virtual conference facilities.

**Department:** [School of Journalism](#)

**Number of Staff:** 60

**Points:** 22

**Date of Certification:** May 2016

**Summary:** The School of Journalism certified with initiatives that include reducing the energy use of computers, lights, and printers, converting to digital course evaluations, creating ReUse and battery recycling stations, offering beverage recycling, hosting sustainability themed events, and regularly meeting to discuss recycling and waste reduction.

**Department:** [Space Sciences Lab](#)

**Number of Staff:** 314

**Points:** 19

**Date of Certification:** May 2016

**Summary:** The Space Sciences Lab certified with initiatives that minimize environmental impacts including having a car share account, participating in the 2025 Carbon Neutrality Cool Campus Challenge, offering composting, having a teracycle, glove, and garment recycle program, encouraging the department to take the stairs and conserve water, and minimizing air travel by having several video conferencing facilities.

**Department:** [Recreational Sports](#)

**Number of Staff:** 800

**Points:** 32

**Date of Certification:** December 2015

**Summary:** Rec Sports certified with initiatives that include reducing the energy use of computers and lighting, composting in multiple locations, switching to mini-bins, reducing paper use, certifying a green event, eliminating bottled water, recycling shoes and tennis balls, using biodegradable laundry soap, and having a department website.

**Department:** [Environmental Sciences, Policy, and Management](#)

**Number of Staff:** 70

**Points:** 28

**Date of Certification:** August 2015

**Summary:** ESPM became green certified for initiatives that include hosting a swap day for unused office supplies and electronics, including green tips in their monthly newsletter, reducing printed course material, encouraging energy and water conservation through signage, providing reusable water bottles and mugs, hosting a ReUSE station, and having power-save modes on monitors.

**Department:** [Haas School of Business](#)

**Number of Staff:** 250

**Points:** 23

**Date of Certification:** June 2015 (also May 2013)

**Summary:** Haas recertified with initiatives that include reducing the energy use of computers and lighting, composting in multiple locations, reducing paper use, operating a ReUSE station, reusing existing furniture, certifying a green event and educating event planners, hosting a Coffee and Commuters, a freecycle, and a e-waste collection event, installing low-flow aerators, organizing a virtual food drive, and drafting a strategic plan.

**Department:** [University Health Services – Tang Center](#)

**Number of Staff:** 320

**Points:** 22

**Date of Certification:** August 2014 (also January 2012)

**Summary:** UHS re-certified with initiatives that include including sustainability articles in *Ear to the Ground*, delamping fixtures and installing CFLs, creating a ReUSE station, eliminating bottled water and installing hydration stations, expanding their bike cage, using a solar irrigation system, moving to electronic records, and reducing the frequency of office supply orders.

**Department:** [UC Berkeley Police Department](#)

**Number of Staff:** 150

**Points:** 21

**Date of Certification:** February 2014 (also July 2009)

**Summary:** UCPD re-certified with initiatives that include replacing their refrigerators, installing software to manage desktop energy use, replacing incandescent lights, setting printers to double-sided, using rechargeable batteries, offering no bottled water, setting sustainability goals, reducing paper use, and a sustainability section in Wellness newsletter.

**Department:** Property Management

**Number of Staff:** 16

**Points:** 15

**Date of Certification:** September 2013

**Summary:** Property Management certified with initiatives that include eliminating all CRT monitors, making a scanner available to all employees, offering no bottled water, posting reminder stickers to turn off monitors and lights when not in use, providing cameras for video-conferencing, ensuring all office supplies, paper and furniture are reused, and accepting public e-waste for recycling.

**Department:** [Office of Environment, Health and Safety \(EH&S\)](#)

**Number of Staff:** 65

**Points:** 22

**Date of Certification:** May 2013 (also April 2011 and April 2009)

**Summary:** EH&S re-certified for the second time with initiatives that include installing energy efficient window film on office windows, partnering with myPower on an energy survey, installing CFL lamps and distributing task lamps, using rechargeable batteries, no longer using bottled water or CRT monitors, having department watt-meters and a bike fleet, and adding composting.

**Department:** [Procurement Services](#)

**Number of Staff:** 18

**Points:** 15

**Date of Certification:** May 2013

**Summary:** Procurement Services certified with initiatives that include eliminating all CRT monitors, making a scanner available to all employees, using only reused or donated furniture through two separate moves, offering no bottled water and reusable kitchenware, participating in a reusable delivery box program, using green cleaning supplies, and posting 'turn off the lights' reminders.

**Department:** [Cal Catering](#)

**Number of Staff:** 12

**Points:** 20

**Date of Certification:** June 2012

**Summary:** Cal Catering certified with initiatives that include composting and recycling, programming monitors to switch to standby mode, collecting and using one-side clean paper in a printer, using only 100% recycled content paper, maintaining a herb garden, using 100% compostable kitchenware, donating excess food to a charity, and collecting e-waste.

**Department:** [Cal Student Store](#)

**Number of Staff:** 117

**Points:** 21

**Date of Certification:** April 2012

**Summary:** The Cal Student Store certified with initiatives that include collecting and using one-side clean paper, not selling any bottled water, composting building-wide, offering textbooks for rent, selling sustainable clothing and school supplies, offering plastic bag and electronics recycling to customers, using recycled shipping materials, and supporting campus projects.

**Department:** [CITRIS](#)

**Number of Staff:** approx. 25

**Points:** 20

**Date of Certification:** July 2011

**Summary:** CITRIS certified 20 points for initiatives that include food and paper towel composting, conducting a comprehensive energy audit as part of a larger research project, installing an air quality game (Black Cloud Project), using power strips to minimize phantom power loads, developing a green touch screen, having a food purchasing policy, and hosting a weekly lecture series on energy.

**Department:** Center for Latin American Studies (CLAS)

**Number of Staff:** approx. 10

**Points:** 17

**Date of Certification:** April 2010

**Summary:** CLAS and a Building Sustainability at Cal (BS@Cal) intern set up One Side Clean (OSC) bins, ordered more recycle bins, contacted student group ReUse for a satellite station, hosted a Green Event, increased efficient signage regarding waste and recycling, and got rid of bottled water. 4 innovation points were earned by installing sustainable landscaping outside the building, hiring a BS@C intern to implement sustainable projects, conducting a Building Occupant Behavior Analysis and Building Walk Through, and actively promoting alternative transportation.

**Department:** [Residential and Student Services Programs \(RSSP\)](#)

**Number of Staff:** approx. 500 career staff, 1,500 student and part-time employees

**Points:** 14

**Date of Certification:** April 2009

**Summary:** RSSP oversees the Haste Street Child Development Center that is LEED certified and also requires Energy Star fridges and microwaves in dorms. Composting occurs in at least one location per floor in the RSSP building, and all toner and printer cartridges are recycled. The department offers reusable plates, cups, and silverware and achieved all the possible points for addressing individual behavior, which included having the "Drop your Usage" water reduction campaign posted in all bathrooms and having lockers available for people to change clothes after walking or biking to work.
